COMMUNICATION COVERING TRANSMITTAL OF PRIOR ART STATEMENT (IDS)
IN ACCORD WITH 37 CFR 1.97 AND 1.98 AND MPEP 609 AND 707.05(b)

Sir:

Herewith, in accord with the foregoing regulations, please find a Prior Art Statement (IDS) which, it is respectfully submitted, should materially advance and accelerate the prosecution of the above-identified application.

As will be noted, this Prior Art Statement (IDS) calls a number of prior art references, which might be considered relevant, to the attention of the Examiner and comments thereon. Although these references were mainly turned up in a European Patent Office search regarding the EPO priority application, that they are in fact "Prior Art" is not admitted.

Entry of this Prior Art Statement (IDS) into the file of this application, citation of the references called to the Examiner's attention therein, and favorable action on the merits of this application are all respectfully solicited.

Respectfully submitted,

G O R D O N W . H U E S C H E N

Attorney

twelve (12) references cited therein attached
thereto together with PTO 1449 listing the same.
